Jocsan Adriel Pérez Coto

jocsancoto@gmail.com · github.com/JocsanPerezC · linkedin.com/in/jocsan-perez-coto
Cartago, Costa Rica · Spanish (Native), English (B2)

Computer Engineering student at Tecnológico de Costa Rica with hands-on experience in full-stack development, building scalable web applications using React, Node.js, and PostgreSQL. Strong focus on REST API design, performance optimization, and clean UI development.

EXPERIENCE

Teaching Assistant **Jan 2024 - Present**
Cartago, Costa Rica

- Supported students in programming, data structures, and web development concepts
- Assisted with grading, lab sessions, and course material preparation

Full-Stack Developer — Inclutec **Oct 2025 - Present**
Cartago, Costa Rica

- Developed and maintained web application features using React, Flask, Python and Figma
- Implemented REST APIs and improved system performance and scalability
- Collaborated on building accessible learning solutions for sign language education

---

PROJECTS

PIELS | React, Node.js, PostgreSQL, REST API Website

- Presented PIELS at Librasthon in Presidente Prudente, Brazil, showcasing an accessible sign-language learning platform to an international audience.
- Built a full-stack web platform to teach sign language, featuring interactive lessons and user progress tracking
- Developed RESTful API with Node.js/Express connecting React frontend to PostgreSQL database
- Implemented responsive UI components with React for an accessible learning experience

Requirements Management System | React, Node.js, PostgreSQL Website

- Built a full-stack CRUD platform for managing software requirements across engineering projects
- Designed relational database schema and REST endpoints for full project lifecycle management

---

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C, C++, SQL
Frontend: React, HTML5, CSS3
Backend: Node.js, Express.js, Flask
Databases: PostgreSQL, MySQL, SQL query optimization Tools & DevOps: Git, GitHub, Docker (basic)

EDUCATION

Tecnológico de Costa Rica — Expected graduation: 2027
Bachelor of Science in Computer Engineering
Relevant coursework: Data Structures, Algorithms, OOP, Software Design, Databases, Operating Systems, Computer Networks, Software Quality Assurance

---
